TOYOBO (THAILAND) CO., LTD. to Exhibit Environmental Solution Systems at Oil & Gas Thailand 2026

TOYOBO (THAILAND) CO., LTD. (hereinafter “TTH”), a Bangkok-based affiliate of TOYOBO MC Corporation, will exhibit environmental solution systems at Oil & Gas Thailand 2026 (OGET 2026), an exhibition for the oil, gas and petrochemical industries to be held in Bangkok, Thailand, from October 14 to 16, 2026.

At its booth, TTH will showcase products and technologies for petrochemical plants and other manufacturing facilities. These include the “K-FILTER™” VOC recovery apparatus, which efficiently recovers volatile organic compounds (VOCs) at high purity; the “HONEYROTOR®” VOC concentration apparatus, which concentrates low-concentration exhaust gases and enables downstream treatment systems to be made more compact; and the VOC deodorizer and concentrator for low-volume exhaust gases.

Growing regulatory pressure to reduce VOCs emissions is driving demand for effective emission control solutions in Thailand. Through its proven VOCs treatment technologies, TTH contributes to reducing our customers’ environmental impact while enhancing their operational efficiency.

VOC concentration apparatus “HONEYROTOR®”

1. Products

- “K-FILTER™” VOC recovery apparatus
- “HONEYROTOR®” VOC concentration apparatus
- VOC deodorizer and concentrator

2. About the Exhibition

- Duration : October 14 – 16 , 2026
- Venue : BITEC, Bangkok International Trade & Exhibition Centre, Bangkok, Thailand
- Booth No. : 129
- Website : <https://www.oilgasthai.com/>

(End)
