TOYOBO MC to Exhibit “Cosmolight™” Water-Washable Flexo Plates at LOUPE India 2026

TOYOBO MC Corporation (hereinafter “TOYOBO MC”) will exhibit its optical functional materials products at LOUPE India 2026, to be held in Greater Noida, near Delhi, India, from October 29 to November 1, 2026. At its booth, TOYOBO MC will showcase “New Cosmolight”, a newly developed water-washable flexo plate that offers improved dot reproduction and ink transfer performance, along with its existing “Cosmolight™” water-washable flexo plate.

LOUPE India is one of South Asia’s largest exhibitions dedicated to the label, package printing, and converting industries. Formerly known as Labelexpo, the exhibition has expanded its scope beyond label printing to include flexible packaging and paperboard converting.

Driven by economic growth and increasing demand for consumer goods, the label and packaging printing market in South Asia, including India, is expected to continue growing at a strong pace. Through its participation in this exhibition, TOYOBO MC will promote solutions that combine reduced environmental impact with high-quality printing, while expanding sales channels and strengthening its customer base.

Water-washable flexo plate”Cosmolight™,”
